Objective

Proactive Frontend & Backend Developer with expertise in building scalable MERN stack applications and AI/ML Research. Experienced in secure JWT authentication, REST API integration, and cloud deployment (Vercel/Render). Dedicated to delivering user-centric solutions with strong problem-solving skills.

Experience

- **AS Global Software Tech** Nov-2025 - Feb-2026
AI/ML R&D Intern
 - Researched and developed data-driven AI/ML models, optimizing system performance and accuracy.
 - Performed comprehensive data analysis and preprocessing using Python, NumPy, and Pandas.
 - Collaborated with senior researchers to document algorithm efficiency and findings.
- **GT Software** June-2025 - July-2025
Mern Stack Developer Intern
 - Developed and maintained full-stack web applications using React.js, Node.js, and MongoDB.
 - Successfully completed 8 real-world projects, gaining hands-on experience in professional development environments Implemented new features and optimized existing components to improve UI/UX and system response time.

Education

- **Hindusthan College of arts and science** 2025
B.Com Computer Application
CGPA 7.0

Projects

- **Smart Campus Manager**
 - Built a full-stack student management system with JWT authentication and RESTful APIs.
 - Deployed frontend on Vercel and backend on Render with MongoDB Atlas for cloud data management.
- **HealthEdge AI - AI Prediction System**
 - Developed a diabetes prediction app using Random Forest and Flask, integrated with MongoDB Atlas for cloud data storage.
 - Built a hybrid system combining ML probability and clinical vitals to automate patient prioritization on a live dashboard.
- **File Recovery**
 - Core Logic: Engineered a tool to recover deleted files (JPG, PDF, MP4) by scanning raw binary disk streams for unique file signatures.Full-Stack Integration: Built a responsive React dashboard to monitor recovery progress and display live file thumbnails via FastAPI.

Technical Skills

- **Frontend** : HTML , CSS, Java Script(ES6+), React.js, Bootstrap, Vite.
- **Backend & DB** : Node JS, Express JS, FAST API, MongoDB, REST APIs.
- **Data Science** : Python, NumPy, Pandas, Matplotlib (Data Visualization), AI/ML Research & Development.
- **Tools & Cloud** : Git, GitHub, AWS EC2, Domain/DNS Configuration, Vercel, Render, Postman, VS Code.

CERTIFICATES

- AI/ML Research & Development (AS Global Soft Tech).
- Mern Stack Developer (GT Software).
